Print on any paper or use full sheet sticker material such as Avery 8255

Color the One with the Earth symbols.

Sun (yellow), **Land** (green-- 30% of Earth's surface), **Water** (blue-- 70% of Earth's surface)

The circle is **Earth**. The stick figure represents **life**.

Cuto out the labels and place them where they will remind people to do the right thing.

The symbol represents the one overarching environmental challenge--

We are depleting and degrading Earth's resources faster than nature can renew them.

One with the Earth, the Universal Environmental Symbol is free for all to use.

Order Free Conservation Stickers <onewiththeearth.org> plus downloadable symbol artwork.
